DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 16-18, drawn to a liquid ejection apparatus.

Group II, claim(s) 2, 3 and 4, drawn to a liquid ejection apparatus.

Group III, claim(s) 5 and 7-10, drawn to a liquid ejection apparatus.

Group IV, claim(s) 6 and 39-42, drawn to a liquid ejection apparatus.

Group V, claim(s) 11-15 and 43-45, drawn to a liquid ejection apparatus.

Group VI, claim(s) 19 and 35-38, drawn to a liquid ejection method.

Group VII, claim(s) 20-21 and 22, drawn to a liquid ejection method.

Group VIII, claim(s) 23, drawn to a liquid ejection method.

Group IX, claim(s) 24-29 and 46-51, drawn to a liquid ejection method.

Group X, claim(s) 30-34 and 52-55, drawn to a liquid ejection method.

2. The inventions listed as Groups I-X do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical features (STF) of group I-X directed to a liquid ejection apparatus and method having a voltage applying unit combined with an ejection atmosphere adjusting unit, a static

eliminator and others. The forgoing STF is present in Morozov et al (US 6,350,609; see Figs 24 and 32A) or Nakagawa et al (US 2005/0212837; see Figs 3-4 and 7-8).

Therefore, there is no unity of invention when the STF is present in the prior art. Hence, lack of unity is held by the examiner under 37 CFR 1.475 and PCT Rule 13.

3. A telephone call has not been made to applicants to enable applicants' time for careful consideration of the lack of unit requirement and/or enable applicants if so desired to amend the present claims. In this way, should applicants elect group I, apparatus claims, applicants may want to make some more claims depend from claim 1, so then they can get more for them money.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to YEWEBDAR T. TADESSE whose telephone number is (571)272-1238. The examiner can normally be reached on Monday-Friday 8:00 AM - 4:30 PM.
